Coal-briquette Factory at HIDAS

1. A new briquette factory has been built at HIDAS where lignite is mined at the nearby HIDASBANYA. The BUDAPEST headquarters of the plant are named MAGASNYOMASU BRIKETTE GYAR and are situated in the TANACS KORUT, BUDAPEST VII.
2. The plant works on a high-pressure system which does away with the need for any binding material. It was due to start production at the end of 1956 or the beginning of 1957.
3. The technological side of the project has been in the hands of East German engineers whilst the machinery was produced in both East Germany and Hungary.
